

Deepak Rath

Senior Frontend / React Developer

Gurugram | 8087179086 | rathi0056@gmail.com

Professional Summary

Senior Frontend Engineer with 6.5+ years of experience building scalable, high-performance web applications across fintech, enterprise, and product-based environments. Strong expertise in React.js, Next.js, and modern JavaScript frameworks, along with hands-on experience in AI tools (including GitHub Copilot), AWS, Docker, and CI/CD pipelines. Proven ability to design role-based systems, interactive platforms, and data-driven dashboards with a focus on performance, usability, and scalability.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

UI & Styling: Tailwind CSS, Material UI

Build Tools: Vite, Webpack, Babel

State Management: Redux, React Query

Backend: Node.js, Python (Basic)

AI & Tools: GitHub Copilot, AI workflows

Performance & APIs: REST APIs, GraphQL, Web Vitals, lazy loading, caching

Cloud & DevOps: AWS, Docker, CI/CD Pipelines

Testing: Jest, React Testing Library

Tools: Git, Jenkins, Jira

Professional Experience

Incedo Inc — Senior Software Engineer (Feb 2025 – Present)

- Working on the ELAN project for US Bank, building a secure and scalable web platform to display and manage credit card offerings.
- Designed and implemented role-based access control systems for secure and personalized user experiences.
- Developed responsive, high-performance frontend using React and modern architecture.
- Contributed to MIP Box Label project, an AI-based data labeling system.
- Integrated CI/CD pipelines and improved deployment efficiency.
- Collaborated with cross-functional teams to enhance performance and scalability.

Atomic North — React Developer (Jul 2023 – Dec 2024)

- Developed a truck delivery dashboard to manage operations and generate monthly billing.
- Implemented multi-level approval workflows for billing systems.
- Built scalable and maintainable UI architecture.
- Designed efficient data flow systems.

Krya Innovation Pvt. Ltd. (Rippl Product) — React Developer (May 2021 – May 2023)

- Developed Rippl, a gamification platform.
- Built quiz games, user-generated content modules, and interactive features.
- Implemented rewards, badges, vouchers, and points systems.
- Focused on reusable components and scalable frontend development.

Expleo Pvt. Ltd. — Software Engineer (Sep 2018 – March 2020)

- Developed automation solutions.
- Built Android applications.
- Delivered enterprise-grade solutions.

Education

Bachelor of Engineering (Computer Science), Pune University
